EDUCATION

General

University ITMO

IT-Lyceum

Computer science and engineering

Moscow

Courses

Introduction to Digital Culture

openedu.ru

Data storage and processing

openedu.ru

Skillfactory: Python Web Developer

WORK EXPERIENCE

Django backend developer

АО «Евropoцeмy»

Django, JS, Docker, SQL, Gitlab, Redis, ClickHouse

PROJECTS

Java client server application with UDP

Github

Java application with Command patterns.

Client and server communicate via UDP protocol.

WEB app with Java EE and JavaScript

Github

A simple example of using java beans and JSF, hibernate and postgresql

File System on C

Github

The project is based on the Libfuse library.

The methods of storing, changing, deleting information, working with time, etc. have been rewritten.

The project is in progress, in the future a server application with the FTP protocol will be added

TECHNICAL STRENGTHS

Computer Languages

Python, Java SE/EE, JavaScript, C++, SQL

Protocols & APIs

XML, JSON, YAML, REST

Databases

MySQL, PostgreSQL, SQLite, ClickHouse

Tools

Django, Matplotlib, Hibernate, Spring

General

Linux, Basic knowledge of TCP/IP and HTTP, Git, LaTeX, Unix

basic knowledge of testing, knowledge of various encodings, CISC, RISC,

VLIW, AJAX, FastCGI, CGI, Servlet, JSP, HTML, CSS

Web Application Architecture

ADDITIONAL INFORMATION

Languages

English (upper intermediate), Russian (native)

Hobby

chess, skiing & snowboarding, football, armwrestling

Extracurricular Activity

informatics tutor, math tutor
